Easy Installation

Easily installs into existing 3-bolt mount sink flange with adapter and splash guard (included).

Permanent Magnet Motors

Commodore Bio Shield® motors offer maximum torque instantly with the power to cut through potential jams.

Compact and Lightweight

Smaller and lighter than most other disposers because of their space age, high-tech components. They guarantee heavy duty performance and provide important space-saving benefits.

Bio Shield® (Antimicrobial) for ODOR PROTECTION!

Disposers are treated with an antimicrobial agent molded inside, providing protection against odor causing bacteria growth.
